Technology is ever-changing.
No matter what stage you are at,
in business or your career, there is
always more to learn.

At Technology Ireland ICT Skillnet, our vision is to create **progressive futures**, helping organisations to **transform at scale** and individuals to **develop a competitive edge**, through the **power of learning**.

For almost two decades, Ireland's leading technology companies have trusted us to build the critical skills needed to thrive in a rapidly evolving market.

Our Mission

To help individuals and organisations build the critical technology skills needed to succeed and to realise their full potential.

To achieve this, we have 6x core beliefs, which underpins everything we do and how we do it. **We believe...**

...learning has the capacity to be transformative. We want a skilled workforce in Ireland, to be able to enrich the lives of individuals, organisations, communities, and the future world of work.

...in moving people forward. We do this by guiding individuals and organisations through learning pathways, that pair talent with training, so both reach their full potential.

...in partnering with Ireland's top-tier universities. We're uniquely positioned to deliver a diverse and comprehensive portfolio of in-demand courses, from micro-credentials to Masters, fully accredited and government-subsidised.

...no matter how fast technology moves, education must move faster. To stay current, we all need to nurture a mindset of continuous learning.

...effective training needs to be relevant and flexible. We ensure our courses are affordable, industry-led and future-focused.

...learning journeys should never stop. We're Technology Ireland ICT Skillnet, different by design.

Supercharged skills

Each of our programmes are designed, developed, and validated with a constant focus on:

1 Creating opportunity and momentum for experienced professionals and those starting out or transitioning career.

2 Delivering learning solutions in a way that **balances work and study**.

3 Providing practical skills, along with the theoretical, allowing businesses to **navigate new frontiers in the world of tech**.

Embrace the future with confidence,
with Technology Ireland ICT Skillnet as
your training partner.

Our extensive course portfolio allows you to access training in the latest technologies driving business development. With 12 pillars and over 30 courses to choose from, there's one that's just right for you.

Training you can trust

Our courses are uniquely co-developed with industry and academia, so you can be assured that you will gain the most relevant and cutting-edge skills that industry demands. Some of our partners include:

Join 12,000+ learners who have transformed their careers with us. **Explore our range of courses >**
